Harvest Festival At St. Ambrose a Success

Sale at Social Brought Good Return From Bidders

The ancient custom of giving thanks for the blessings of harvest was appropriately and successfully observed in St. Ambrose Church last Sunday week. Large congregations attended all services and joined heartily in the singing of the special hymns appointed for the occasion. The special music rendered by the choir both at the Choral Eucharist in the morning and at evensong in the evening was greatly appreciated, and particular credit is due to them for their rendering of Arthur H. Year's "The Earth is the Lord's" as an anthem at evensong, their execution of the semi-chorus, "And now on this our Festival Day", andante moderato con espressione, being particularly noteworthy.

The decorating of the Church had been most tastefully executed and the masses of flowers, grain and vegetables presented a memorable picture which amply repaid the efforts of those responsible for the collection and arrangement of these gifts. On looking round the Church one felt that the citizens of Redcliff took second place to none in the production of beautiful flowers and high grade vegetables. The preacher at both services was the Vicar who shared with Sacramental Thanksgiving in the morning and Material Thanksgiving in the evening.

On Monday evening the annual Harvest Whist Drive and sale of vegetables took place in the Parish Hall and was largely attended. Miss Evelyn Jones won the Ladies' first prize, Mrs. Oakland the Ladies' second prize while Mr. W. Willis won the gentlemen's first prize and Mrs. H. Cox the gentlemen's second prize. Lunch was served after the Whist Drive followed by the auctioning of the vegetables and flowers with Mr. H. Lepard acting as auctioneer. Several tons of vegetables were disposed of and every one enjoyed the friendly rivalry which the bidding on choice lots produced. The Missionary assessment benefited from the sizable sum realized and everybody felt that the evening had been a great success.

Another car accident happened just east of town last Saturday evening when W. Willis was run into by a car driven by Mr. Graham of Medicine Hat. Mr. Willis was coming home from the Hat when the accident happened. Fortunately no one was seriously hurt, but Mr. Graham's car was badly damaged.

C. COY, 1st BN., S. A. R.

All ranks will parade at the Armouries at 20.00 hrs. on Monday, the 17th, for the purpose of commencing local training.

As the training establishment is limited, only those who trained last training period will be eligible for the local training.

A. G. OSGOOD, Capt.
O. C. Coy., 1st BN. S. A. R.

Regular Meeting of The Town Council

Ratepayers' Resolution Ordered Sent to Commission

With Mayor Worris in the chair and councillors Smith, Shaw, Hargrave and Sangster present, the town council met last Monday in regular session. Gordon Horne waited on council and made an offer for one of the town houses. The matter was laid over till next meeting.

Several accounts were read and approved for payment.

On motion of councillors Shaw and Hargrave to secretary was instructed to make inquiries regarding insurance on pump station.

The resolution passed at the ratepayers' meeting was presented to council and the secretary was instructed to forward same to the Utilities Commission. The secretary was instructed to draw attention, through the press, to the way of getting fire alarm sounded under new telephone system.

MORE ABOUT RAIL & ROAD TRANSPORTATION

Federal and Provincial governments of the Dominion should get together and look in to the question of regulating the road motor vehicles so as to equalize conditions under which road and rail transport is carried on. A joint inquiry should result in agreement as to general principles. A consultative committee consisting of representatives of the provinces and the Dominion, might see to the carrying out of the principles agreed upon.

Thus the royal commission on transportation deals with one phase of the transportation problem in the report tabled in the House of Commons.

How is Your Subscription?

Churches

ST. MARY'S CHURCH

Celebration of Mass every Sunday at each month except first Sunday, at 8:30 a.m.

ST. AMBROSE CHURCH

Rev. Malcolm Stewart, Vicar
9 a.m. Holy Communion.
10 a.m. Sunday School.
1st and 3rd Sundays
11 a.m. Choral Eucharist.
2nd, 4th and 5th Sundays
11 a.m. Matins and Sermon.
7:30 p.m., Evensong and sermon.

GORDON MEMORIAL UNITED CHURCH

Pastor: Rev. R. Erskine Pow
Sunday, October 16th.
10 a.m. Church School.
11:15 a.m. Morning Worship
3 p.m. Bowel.
7:30 p.m. Evening Worship.
Thanksgiving service will be held at both diets of worship, and Rev. T. S. Paton will be the preacher at both services. There will be special music rendered by both choirs.

"Thou Crownest the year with Thy goodness."

FARM LOAN BOARD REPORTS A PROFIT

Operations of the Canadian Farm Loan Board during the year ended March 31st 1932, brought a profit, after all expenses were deducted, of \$371,322. It was shown in a report tabled in the House of Commons. The profit for the previous year was \$56,128.

Under the Act, the Dominion government subscribes to 5 per cent of the stock, provincial governments 5 per cent, and borrowers 5 per cent. Subscriptions at the end of March, 1932, were as follows: Dominion of Canada, \$398,987; British Columbia, \$59,605; Alberta, \$158,715; Manitoba, \$27,778; Quebec, \$109,189; New Brunswick, \$26,177; Nova Scotia, \$12,470; and the borrowers, \$403,135.

The Calgary Herald, which conducts the sunshine fund, writes asking the support of this district with contributions for this worthy purpose. The letter also points out that donations of clothing and vegetables will be acceptable.

WILL ASK GOVT. FOR BONUS ON WHEAT

The Federal Government will be asked for a bonus on wheat production for the present year's crop. It was announced at the conclusion of the two-day conference between representatives of the three Prairie provincial governments and officials of the three provincial Wheat Pools.

Advisability of calling a conference of representatives of the governments and producers of the chief exporting countries, to consider all phases of the wheat problem will also be suggested.

Nineteen miners were either killed or drowned in a mine accident at Plank Lane Mine near Leigh, England, last Monday. A defective lift was the cause of the accident.

St. Ambrose Organizes For Social Season

First Social Evening to be Held Next Monday

At a meeting held in the Parish Hall on Wednesday night it was decided to re-form the social committee and arrange for social evenings on every Monday night during the winter. The first of these whist drives and social evenings will be held next Monday night starting at 8.00 p.m. A good time with prizes and good music is assured and the admission is only twenty-five cents. The following committee was appointed to superintend the social activities of the parish:—Mr. W. Hill, convenor, Mr. C. Sewnham, Mr. R. Cann, Mr. H. Bardell, Mr. W. Champ and Mr. H. LePard.

Mrs. Gosendard of Binville, spent last week end in town the guest of Mrs. Broadfoot.

Two young farmers, with teams and wagons, passed through town on Tuesday on their way from the dry area of Saskatchewan to settle on land in the Cluny district.

A number of C. P. R. officials visited Redcliff yesterday on a tour of inspection. In the party were General Supt. A. Hall, Mr. G. Fox, Dist. Engineer, T. Lees and local engineer W. L. Cottingham. While here they paid a visit to the Glass plant.

A highly optimistic picture of the benefits which would accrue to Canada by the tariff concessions grant of both starches alone granted to this country on wheat and wheat flour, was given in the House of Commons yesterday by Premier R. B. Bennett. He spoke of this "farm commodity" as at the moment "of most immediate importance to this country."

Legion to Parade On Armistice Day

Will Attend Service at Gordon Memorial

At the general meeting of the local Legion held last Sunday it was decided to hold the annual Legion parade on Armistice Day, Nov. 11th. The local militia will join in the parade and an invitation is extended to all other organizations to take part. The parade will march to Gordon Memorial Church where the service will be held at 11 o'clock in the morning.

The Ladies Auxiliary will undertake the sale of poppies for the occasion.

Farmers and hunters report let antelope be very numerous in this district. A large herd of them was seen this week with in a few miles of town.

Mr. Wm. Henderson sr. left Tuesday evening for Windthorst, Sask., to look after the affairs of his brother who died there last week.

The Diamond D. football whist drive and dance which has been twice postponed will be held on Friday evening of this week. Good prizes and good music assured.

Miss Evelyn Hicks, who is now training for a nurse in Calgary, was in an auto accident last week end but we are glad to report that she escaped without any injuries.

Last Thursday afternoon sixteen transients were taken off a freight here by R. C. M. P. Allan of Medicine Hat. They were taken to the Hat for trial. Some of them paid their fine and some accepted the invitation to be the guests of the government at Lethbridge for three weeks.

St. Mary's Ladies Have Successful Evening

Supper Whist Drive And Dance Well Patronized

The chicken supper put on in I. O. O. F. Hall last Monday evening by the ladies of St. Mary's Altar Society attracted a large attendance and the satisfied look on all who left the banquet hall was convincing evidence that they had enjoyed to the full the most tempting and daintily served dinner provided. It required the resetting of the tables several times before all were served but this in no way interfered with the service or the accommodation of the crowd.

After the supper the hall was cleared and tables were arranged for a whist drive which was also well patronized and very closely contested. The prizes were won by two ladies, Mrs. Probert won the ladies prize and Mrs. W. Davidson, who played as a gent, won that prize.

Another clearing of the decks and the hall was transformed into a gay and jolly assembly of dancers who were kept to leave after the home sweet home was played. From every standpoint the was a great success.

The ladies in charge wish to extend their hearty thanks to the public for their patronage and to all those who assisted in any way to make the event the success it was.

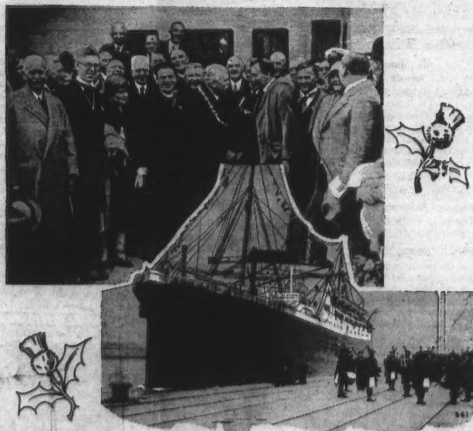

PLAN TO PLACE MEN ON FARMS
A plan to put 300,000 men on Canadian farms as laborers was explained to the House of Commons by E. J. Young, Liberal Wayburn. The government would pay each man a \$5 a month for necessary expenses and a like sum to the farmer to cover part of the man board. The scheme, he admitted, would not cure unemployment but it would create opportunities for useful work at low public cost.

PROTEST RAISE IN LAKE FREIGHT RATE

A protest against increases in lake freight rates, at a time when grain prices have been declining, has been despatched to the federal government. Signed by representatives of the prairie provinces' governments, the protest is addressed to Hon. H. H. Stevens, federal minister of trade and commerce. The lake rate, it is stated in the telegram sent to Ottawa, have increased from four to seven cents since the early part of July.

Jeann Aloucherie of Paris, a member of the French exploration party that made a trip by caterpillar tread automobile across Africa and Central Asia, has been conferring with the engineering department of the Canadian National Railways on the possibilities of making such a trip through the far north of Canada within the great Arctic Circle. If it is believed to be feasible, it is altogether likely that the same group of explorers will undertake the trip either next summer or in 1934.

Welcomed to Scotland

Six hundred Canadians who call Glasgow home, were greeted on their arrival in the Clyde city by Sir Thomas Kelly, L.D., Lord Provost, and representatives of the city, when they arrived recently in the Canadian Pacific liner "Duchess of Bedford" for a reunion. Gathered together from all parts of Canada, and transported by special train to Montreal, the Glaswegians are making a two-months stay, during which they are being entertained by the City of Glasgow, its municipalities, and their friends. Proceedings opened Tuesday, July 26th, when the Lord Provost, municipalities and councillors held a reception in the Art Galleries at Kelvingrove. The party, which left Montreal in the Duchess of Bedford, July 8, returns from Glasgow Saturday, August 20, by the same 30,000-ton liner.

Homes And Jobs Needed

Position Of Young Men On Road Not Happy One

Comments from railway travellers about the large number of boys seen riding on freight trains have been substantiated by conservative authorities who estimate that between 20,000 to 300,000 of youth from twelve to twenty years of age are now "on the road." Another "roving army" of jobless youths is reported in Great Britain. Russia has been troubled by bands of children wandering about the country stealing what they could find.

The wanderers here represent a new type. They are neither beggars nor adventurers. They are not criminal-minded. In fact, sons of them are fairly well educated. Broken homes reduced family incomes and unwillingness to remain a burden to an already large family are responsible for their wandering ways. They are not a happy one. Last winter a freight city reported taking from freight trains thirty-five men and boys who were seriously ill. One railroad has reported fifty young men and boys killed and a hundred others injured during a single winter as the latest find was hopping train. The best the wanderer can hope for in a town is two meals and a coffee and some food and the admission to "move on."

Although a publicity campaign is planned to give warning of the dangers of "taking to the road" it can hardly be expected to prove a complete remedy. Both homes and jobs are needed to keep these young men off the road.—New York Evening Post.

Toll-Bridge Keeper Collects Rare Coins

Has One Half Dollar Which Is Centuries Old

Collectors of old and rare coins are advised to take John as collector on toll bridges, if they can get them, in order to augment their collections. The experience of one of these young men at Sunbury, Pennsylvania, justifies the advice.

A. H. Wheland, one of the collectors here, reported his latest find was a half-dollar coined in 1831. The coin was larger than the present 50-cent piece and caused Wheland to hold up the motorist who gave it to him until the money could be examined. On one side was a head of "Min Liberty" and on the other a "great eagle." On the edge were inscribed the letters "Fifty Cents." Convicted of its authenticity, Wheland gave the motorist 40 cents change.

Other curious coins recently taken by Wheland included an English piece of silver, a Cuban coin and other foreign money.

Act As Rest Cure

Doily Days Make People Respond To Stimulant Of Sunlight

Sir Henry Gervase of England, discussing the effects of "resting in the sun," said: "Our dull winters are a good thing. They act as a rest cure, which is very beneficial. When the sunlight comes back we are in a position to respond to that stimulant. When the daylight saving bill was introduced, critics were concerned about the health of children. Staying up late at night they said could only do harm. The effects are entirely different. I have never heard of any health cases in which the extra hour has caused harm to the health of a child. There is much more mental activity the child is able to respond without fatigue. In Norway in summer, the children play in the streets in the middle of the night, go to sleep just when they feel like it, and they seem none the worse for that. In the dark winter with no sun they almost hibernate and are dull and dispirited."

"Dad, lend me your pocket knife." "For what, son?" "To carve my name on the dining room table." — Bonadventure-Strix, Stockholm.

PEACOCK IN FULL DRESS PARADE IN BEACON HILL PARK, VICTORIA, BRITISH COLUMBIA

Four Royal Golfers

Sons of King George Are Enthusiastic

The Prince of Wales's enthusiasm for golf has secured another royal convert, the Duke of Gloucester. The Prince was the first to catch the golf fever, and he was very quickly followed by the Duke of York, who when he is in practice is known as the Duke of Gloucester. The Prince was the first to catch the golf fever, and he was very quickly followed by the Duke of York, who when he is in practice is known as the Duke of Gloucester. The Prince was the first to catch the golf fever, and he was very quickly followed by the Duke of York, who when he is in practice is known as the Duke of Gloucester.

Walking Cane Back

Many City People Resolving Interest In Healthful Exercise

Walking seems to be regaining its dignity. New York people who used to drop in to the subway to go six or eight blocks are now waiting and saving their nickel. "Walking for pleasure is also on the rise. There is not so much evidence of hordes of week-end hikers ostentatiously dressed for making miles, but great numbers with unassuming attire on their hands had walking sticks and walking canes. In 1915 the Newark public library had 1,000 "walking sticks," some twenty short. The list was revised from time to time, until the quantity of the motor car made many use the taste or the opportunity for walks. Renewed interest now prompts the library to ask for fresh suggestions about enjoyable trips from individual or walking clubs."

Referencing the Migratory Birds Act

Officers of the Royal Canadian Mounted Police, acting for the National Parks Branch, Department of the Interior, which administers the Migratory Birds Convention Act in Canada, seized at Ottawa recently three live bobolinks (gophers) which were being kept in captivity as cage birds. The birds were taken to Rockcliffe Game Preserve and released in congenial surroundings. Practically all wild birds are protected by Dominion and Provincial law and may not be kept in captivity. Persons violating these laws are liable to heavy penalties.

Defends the Bumps

A railroad company in England runs what is called the "whitehead special." The train carries no passengers, but it is equipped to take every fall and bump on the tracks. As a bump is hit, a splash of white water is dropped on the ground to mark the spot for repair crews.

Guest (at country inn): "Charming place this is—seen the old wing?" Second Guest: "Oh, yes, I had for lunch."

"Don't judge a man by his sins. The biggest daddie in the orchestra plays the finest notes."

New Zealand's butter output has increased 7 per cent. in the last year.

Men Most Careless In Crossing Street

Women Show More Sense Opinion Of Winnipeg Traffic Officer

"Men are 'bumbers' than women when it comes to crossing the street without ending up on a stretcher," says a Winnipeg policeman. He spoke as if he knew what he was talking about. More than 30 years of watching traffic and traffic-dodgers have given him plenty of experience.

"Men," he continued, "will walk the path of an oncoming auto and time themselves so that it will barely miss them. They like to take chances and show off, especially the younger ones. And you'll see them duck into a stream of moving autos and dodge their way across the street just to save a few seconds. Women show more sense."

With men it's most often a case of not looking where they're going. They have their minds on a business problem, or a golf game or on nothing in particular, and the next thing they know they're doing a loop. "It's hard to believe," said one civic official, "but I know of cases where a man has walked past into the side of a street car, apparently without even knowing it was there until he hit it—and I've yet to see the man who can tackle a street car with any success."

New Evolution Of Science

Frozen Cider Will Keep Street For Several Months

Modern Science is always coming to the fore with some new wrinkle which extends the market for farm products. One of the latest evolutions is frozen sweet cider. When it comes from the press-cider is frozen to zero degrees F. and held at that temperature until thawed for sale or use. When thawed out it is perfectly fresh and sweet. It will keep seven months or more held at zero, and there is every prospect that it may be developed into an important beverage outlet or by-product for orchardists.—Dominion Department of Agriculture.

Germany has 4,703 daily newspapers.

Industrial activity in Shanghai, China, is increasing.

Michigan, Swampy Are Home Of Three Common Ones

Three common insect-eating plants inhabit the swamps of Michigan—the pitcher plant, sundew and the bladderwort.

The "pitcher plant," which blooms in June and July, takes its name from the fact that its leaves are the shape of a pitcher. The bottom of the leaf is filled with a sweet fluid which attracts the insects. Downward-pointing hairs lining the sides of the leaves facilitate the descent of the prey.

Equally bloodthirsty is the sundew. This plant has leaves covered with numerous hair-like projections upon which are drops of a sweet fluid which are drops of a sweet fluid which are drops of a sweet fluid.

The bladderwort grows in the waterways and is equipped with tiny bladders to entrap all sorts of insect life.

It's NOT IT! MICHIGAN! IT'S OUR OLD PIANO, STANDING SIDEWAYS.

Sends Gift By Telegraph

Clerk's Resourcefulness Helps Wretched Husband Out Of Difficulty

There is a family story about the old lady in the telegraph office: "Well, young man, if you're so smart you can send flowers and money by wire. I can't see why you can't telegraph an umbrella."

Maybe it could be done at that. Down in New York there is a grateful wife—grateful because her husband, though in Montreal, remembered her birthday. The husband is grateful for a telegraph clerk's resourcefulness, and in the Montreal office of Canadian National Telegraphs there is a clerk who declares that helping out harassed customers is all part of the day's work.

For a few moments, however, this lauding husband presented a problem. It was his wife's birthday, she was in New York, and he had forgotten to arrange a present for the occasion. Could the telegraph company help him out? They could and did. The clerk, with memories of having been handed a pot of flowers and asked to send them by wire, or a canary in a cage, suggested that perhaps a telegraph would like to transmit a real present. A nice handkerchief, for instance, was suggested. The arrangements were made by wire with New York, a handkerchief was purchased to be delivered at once to the wife's home address. Life was again serene and the birthday had been duly and fittingly remembered.

Insect Eating Plants

Live Stock Feed

Investigation Work Under Way To Determine Relative Value Of Different Products

The various prices of grain during the last couple of years has aroused special interest in the relative value of different kinds of live stock feed. Early in 1931, wheat food officials appealed to the Grain Research Committee, stating that in the preparation of a clearing for their members they had found great difficulty in finding authoritative published information, and asking whether something could not be done to summarize the results of feeding experiments, particularly in regard to barley, a home-grown product of choice, a product largely imported.

The Committee found on inquiry that Professor E. W. Crampin, of Macdonald College, had already started some work along this line. They made a grant to assist him in extending the scope of his investigation to cover all the modern published literature available on the comparative value of wheat, oats, barley, rye and corn for feeding horses, cattle, sheep and swine. Poultry feeding, it may be remarked in passing, is now the subject of a special investigation by Professor Hester, of the University of Manitoba, headed by the National Research Council.

Crampin's report should be ready for publication before the end of the current year. It will not only give a reasonably sound information on the value of these grains for feed, as well as a statistical study of the results of over seventeen hundred experiments, but it will also indicate some of the lines along which future animal feeding experiments might profitably be directed.

Fifteen Miles Per Hour

Speed At Which Harmsworth Trophy Was Won Once

The Harmsworth Trophy and speed on water have become synonymous in recent years. But it was not always so. With Gar Wood's "Miss America" in 1930, the "Miss America" was the fastest boat in the world, capable of speeds above 130 miles an hour—it is almost inconceivable to imagine that the trophy once changed hands with a speed of 15.45 miles an hour. Yet, it is true.

Back in 1906, three years after the loss of the trophy (then Sir Alfred Harmsworth) placed the trophy in competition, Lord Montagu of Beauchamp and the "Challenger," built a challenger, "Arrow-Napier," and went across the English Channel in France in an attempt to regain the trophy.

It was in this same race that America made its first bid for the trophy. W. Gould Brooker, of New York, went aboard with a boat he called the "Challenger." On his trip across the Atlantic, "Challenger" beat her protesting boat. The boat was raced with engines uncovered and finished with only three of her crew. At that time she was beaten by only two minutes and the winner was "Arrow-Napier" that completed the course at the amazing speed of 15 miles an hour.

That's a far cry from the present speeds, but it happened only 26 years ago. Winning the Harmsworth at 15 miles an hour—it sounds like fiction when you look at the monsters Wood and Don raced in this year's event.

Telephone Manners

Being Courteous Over 'Phone Great Asset In Business

Phone manners might well be made a compulsory study in the schools of business schools, at least. Everyone knows how nice it is to hear a pleasant voice over the telephone, and the reverse, short, crisp, loud or impudent voices, irate complainers on the 'phones are often scolded and changed to smiles by a patient, good-natured voice in reply, and many a good business connection has been saved in the same way, while, contrarywise, much good business has been sacrificed because of irate answers by telephone too-martins. If one end of the wire is to keep the other end cool. When a person picks up the telephone to give someone a piece of their mind, if the other person keeps cool and your smooth words into the troubled transmitter the person at the other end generally finishes by being heartily ashamed of the burst of temper. Good nature on the telephone is worth much money in the business world and much comfort in the social world.

A Doubtful Compliment

Guest—I wonder if you would mind giving me the recipe for that plum cake you served this afternoon at tea?

Hostess—Why, I'll be delighted to give it to you. But your wife makes the most beautiful plum cake!

Guest—I don't like this kind of deprecation. I want her to be more economical.

"Can I have tomorrow off, m'am?" "Yes, why do you ask?" "I was thinking of getting married, but if it is not all right, I can have another day."—Buen Humor, Madrid.

The Anglo-Irish Dispute

Britain Has Counted Cost And Empire Comes First

We must recognize that Britain and the Free State, under her present Government, have come definitely to the parting of the ways. The situation is a serious one, because, though it is almost desperately grave, there is here not the slightest excuse for passion or heroics. The Free State can become a republic tomorrow without the loss of a single drop of blood. She is as free to walk out of the British Commonwealth of Nations as a man is free to walk out of church. Britain offers no threats, and has not the least desire to be vindictive. On the contrary, all her transactions with Mr. de Valera's Government have abounded in good-will. It is manifest, however, that Britain has counted the cost, and has decided that, as between Free State and Empire, she must choose the latter. She cannot afford to have an ally and distrustful element in the British Commonwealth of Nations.—Westly Irish Times, Dublin.

Poor Sells Historic Abbey

Was Founded Thousand Years Ago

By King Alabaster. "There is 67 bedrooms, and who in the world wants 67 bedrooms, I cannot possibly sleep in 67 bedrooms!" Thus said Sir Hambro, famous banker, explains why he sold rambling old Milton Abbey, historic Dorset seat of the Alabasters, to the Erie, just an irritating "white elephant and a nuisance."

The name of the buyer of the venerable Abbey is not, for the present, made public.

Milton Abbey was founded a thousand years ago by King Alabaster and remodelled in the 14th century by the Benedictine friars.

Except for the monks' hall and the refectory, a stately apartment with a roof of Irish oak—all the monastic buildings were pulled down in 1771. The present day, with its 67 bedrooms, many bedrooms, was built at that time by the Earl of Dorchester. This same Earl, in that same year of 1771, did not have the ancient house of Milton so close to his home, so he demolished the whole town, and built the model village of Milton Abbas at a more respectful distance!

The Hambro family came into possession of the Abbey, with its Irish, old walls, 67 bedrooms, and famous ghosts; and without plumbing or heating, about the middle of the last century.

Grains Alone Not Enough

Balanced Ration Is Necessary For Flaming Bacon Fry

In order fully to realize the opportunity which is his in marketing bacon hogs the farmer of the prairie province, in particular, must realize as a fundamental fact that grains alone are not enough to make good bacon. When milk in some form is available it supplies the ideal protein supplement, or balance, to the ration, but in many parts of Western Canada, in particular, milk in any form is scarce. In such cases tankage should be included in the meat mixture. It is an ideal supplement and side note to the feed even when milk is available in abundance. To make your home-grown feeds count you must feed a balanced ration, and tankage is a good means to this end.

FANCIFUL FABLES

13N1T, IT MICHIGAN! IT'S OUR OLD PIANO, STANDING SIDEWAYS.

Michigan, Swampy Are Home Of Three Common Ones

Three common insect-eating plants inhabit the swamps of Michigan—the pitcher plant, sundew and the bladderwort.

The "pitcher plant," which blooms in June and July, takes its name from the fact that its leaves are the shape of a pitcher. The bottom of the leaf is filled with a sweet fluid which attracts the insects. Downward-pointing hairs lining the sides of the leaves facilitate the descent of the prey.

Equally bloodthirsty is the sundew. This plant has leaves covered with numerous hair-like projections upon which are drops of a sweet fluid which are drops of a sweet fluid.

The bladderwort grows in the waterways and is equipped with tiny bladders to entrap all sorts of insect life.

It's NOT IT! MICHIGAN! IT'S OUR OLD PIANO, STANDING SIDEWAYS.

WORLD HAPPENINGS BRIEFLY TOLD

A suitable home for the Canadian legation in Tokyo may be expected in the very near future.

Jimmy Oates, first man to cross Canada by motorcycle, now plans to motorcycle from Ottawa to Churchill.

Switzerland sent 2,200,000 pounds of silk and rayon products to Great Britain last year.

Thirty more Doukhobors have been sent to Plover Island. There are now about 100 on the island.

Three Chinese boys have left Calgary for their homeland to join the Nationalist army air force. They were trained locally.

The report to the League of Nations on Manchuria advises establishment of Chinese autonomy under Japanese advice.

The British Government has received no intimation from the United States regarding postponement of the world economic conference, expected to begin in London in October.

Lord Wakefield, owner of "Miss England III," fastest speed boat in the world, announced he would take no further part in motor boat speed contests.

Population contained within the area designated as Greater Vancouver, according to the census of 1931, is placed at 308,840. It is reported by the Dominion Bureau of Statistics.

Honey Producers May Expect Good Prices

Yield Over Whole Dominion Lighter This Year

Reports made by C. E. Gooderman, Dominion apiculturist, state there is about a 65 per cent. crop in Ontario, a little over 50 per cent. in Saskatchewan and 60 per cent. in Alberta.

While the honey crop in the Red River Valley is somewhat lighter on account of dry weather injuring the clover crop reports from central and northern Manitoba indicate a better crop than last year.

The favorable weather in the spring and early summer developed the clover crop about 10 days earlier than usual in Manitoba, with beneficial results to the honey harvest. According to Mr. L. T. Floyd, provincial apiculturist for Manitoba, producers may expect good prices in view of the fact that the yield over the Dominion is only about 50 per cent. normal.

Gift For King George

Two vessels bearing the royal arms of Portugal, which were in the late King Manuel's English residence, Pwll Park, Twickenham, Middlesex, are bequeathed under his will to King George as a testimony of "deep gratitude for his many kindnesses."

British Journalism—"I represent The Daily Scoop. At what time did his lordship die?"

"His lordship is not yet dead."

"Oh, isn't he? Well, then I'll wait."

The first Zeppelin, German dirigible, recently arrived at Friedrichshafen, Germany, completing its fourth round trip of the year at Pernambuco, Brazil.

Highland Society Bars Women From Membership

Not Even Royal Lady Can Preside At Annual Festival

The Highland Society of London have decided to ask the Prince of Wales to preside at their next annual festival in June of next year. The decision to make arrangements so far ahead is due to the fact that the patronage of any member of the Royal Family can only be assured by making direct representations many months in advance. The Society is more or less precluded from inviting a Royal lady to preside at their annual festival as the Act of Parliament of 1816 and 1831, by which they have been incorporated, debar women from membership.

THE GUMME DRESS HOLDS MUCH JOY FOR TINY SCHOOL GIRLS TO STAY FAL

Isn't this one fetching? It's very gay too! The dress is brown linen. Red and white plaid lining is used for the separate gumpie. Note how it buttons down the back. It can also be worn with a brown and white dotted batiste gumpie.

It's very simple to fashion it. Any 8-year-old can make the minimum of material.

Style No. 853 is designed for sizes 4, 6, 8 and 10 years.

Size 8 requires 1 1/2 yards 35-inch with 1 1/2 yards 35-inch.

For later fall wear, a cunning idea that is exceedingly smart, is a tweed mixture in wide-tied lines with plain lining wool crepe gumpie.

Rayon mixtures and novelty wools are attractive with plain toning gumpie.

Price of pattern 25 cents in stamps or coin (cash is preferred). Wrap coin carefully.

Plan World Cruise

Commander "Carinthia" To Make
Cruise Of Southern Hemisphere

The Southern Hemisphere will be explored for the first time by a cruise when the Canadian cruiser "Carinthia" makes her world cruise next January, leaving New York on January 7th. The entire cruise will be made under the Southern Cross. The duration of the cruise will be 130 days, with a distance of approximately 36,301 miles, calling at 35 ports.

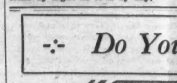

After leaving New York the "Carinthia" will call at Kingston, Jamaica, then through the Panama Canal to California, Hawaii, down to the South Sea Islands, visiting in rapid succession those atolls of fabulous beauty and fascination, Tahiti, Rarotonga, Samoa and the Fijis, continuing to New Zealand and Australia, New Guinea, the Dutch East Indies, including Bali and Java, the Strait Settlements, Ceylon, the Fijis, continuing back to New York. Practically all ports of the itinerary have seldom been visited by Canadians or Americans.

The cruise will be particularly interesting to Canadians in that a large number of British possessions will be visited, including Alaska, New Zealand, Australia, the Strait Settlements, Ceylon, Seychelles, Kenya, Zanzibar, Union of South Africa and Barbados.

The ship is due back in New York on the afternoon of Thursday, May 25th. The "Carinthia" is the newest steamer in the Cunard fleet, was especially constructed for cruising and is of 20,000 tons gross. The shore arrangements of the cruise are being managed by Thos. Cook & Son.

Ray Penetrates Fog

Apparatus for projecting an invisible ray that penetrates fog has been patented on two new German lines. The beam is said to increase by twenty times the distance through which the human eye can see and is as efficient, by night as it is by day.

Do You Know?

What all the "Battles of the Century" are not fought in the secured circle? Here is one between two sibs in the shadow of the Pyramid. Meet the Jasper National Park, Alberta, Canada, before an uninterested audience.

New Anti-Aircraft Gun

Claimed To Have Range Of Seven
And Half Miles

That a new anti-aircraft gun can bring down an attacking bomber at seven and one-half miles up in the air, is the claim to those conducting tests on the Rivers coast near La Seyne, France. The secret of the gun's construction is jealously guarded by the firm whose engineers planned it. Anti-aircraft guns have previously proved effective at a height of about three and one-half miles, but modern aircraft can attain much greater altitudes. In the experiments of La Seyne an aeroplane with pilot and mechanic, ascended seven and one-half miles towing, suspended 1,000 feet beneath it, a target on which the anti-aircraft gun opened fire with live shells. Aviation, military and naval men of Europe are watching the tests.

Recipes For This Week

(By Betty Barclay)

CRISP MOLASSES COOKIES

- 3/4 cup special cake flour, sifted.
- 1 teaspoon baking powder.
- 1 teaspoon salt.
- 1/2 cup molasses.
- 1/2 cup butter or other shortening.
- 2 teaspoons soda.

Sift flour once, measure, add baking powder, salt, and ginger, and sift again. Heat molasses, remove from fire; add shortening and soda. Add flour gradually. Chill. Roll very thin on slightly floured board. Cut with floured cookie cutter. Bake in moderate oven (350 degrees Fahrenheit) 10 minutes. Makes 3 1/2 dozen cookies.

STUFFED PRUNE SALAD

- 2 packages cream cheese.
 - 1/2 can coconut, Southern style, chopped.
 - 2 tablespoons mayonnaise.
 - 24 cooked prunes, seeded.
- Blend cheese, coconut, and mayonnaise. Stuff prunes with mixture. Serve on crisp lettuce. Garnish with additional mayonnaise. Serves 8.

SPECIAL MACARONI SALAD

- 2 cups cold cooked macaroni.
 - 1 green pepper, chopped.
 - 2 raw carrots, thinly sliced.
 - 1 medium sized onion, chopped.
 - 1/2 cup French dressing.
 - English mayonnaise.
- Combine macaroni, vegetables and French dressing. Add sufficient English Mayonnaise to bind ingredients. Chill before serving. Serves six.

Old Orders Still Used

Some of the standing orders still in force in the House of Commons are over two centuries old. An old Norman French phrase is still in use in certain instances, notably "Le Roy se vult" (The King wishes it) in giving the Royal assent to a Bill.

Grapefruit trees normally do not flower until they are at least five years old; but after X-ray treatment grapefruit seedlings a month old produced small flowers.

Many Imprisoned For Debt

British Jails Crowded and Law May
Be Revised

Revisions of ancient British laws which imprison debtors is envisaged, because jails throughout the country are crowded with men and women who have failed to meet their obligations.

On any day of the year there are 839 debtors in British prisons. Approximately 15,000 were sent to prison last year for "writfully refusing to pay" their debts. This year there is a slight increase so far.

British prisons, London's jail for debtors, is full. Its daily population of debtors is 341. This class of prisoner accounts for about 30 per cent. of the prison population of the whole country.

An analysis of the debtors in British prisons shows that 418 were sent there under the Married Women's Act—failure to maintain their wives; 343 under affluence orders, and 107 for non-payment of rates and taxes. None of them can be imprisoned twice for the same offence, but a percentage of those committed for "wife maintenance, or affluence orders, may serve several terms in jail during the year because they have not continued payment as soon as they were discharged from a previous term.

Solves One Problem

Press Buttons and Mechanical Cook
Will Prepare Meal

One of the latest inventions in a mechanical cook which turns out pancakes or coffee piping hot, according to which of two buttons you press.

And wonderful things are to follow. The inventor has already perfected a ham-and-egg machine; Press the button. Cook gets the egg; wait! a slice of ham falls into the pan. As soon as it is cooked it turns the machine delivers the dish.

A great future opens up for the invention. No longer will young husbands be reduced to nervous wreck by the burnt-offerings of meat, the flint-like cakes, and the soggy pastry of young wives whose culinary ambitions outran their skill. Many a promising marriage has been wrecked on the rocks of home-made food. But all these tragic happenings will soon be things of the past.

Returning to a home provided with a multi-button cooker, Edwin, having examined a smiling Angelina, will plan out a dainty meal. Then buttons will be pressed and in a few moments the most wonderful meal will be served.—TIT-BIT.

Many Familiar Sayings

Quotations From Shakespeare Are In
Use Every Day

Even the most illiterate quote Shakespeare every day. Indeed, most of us do not know we use quotations from the greatest playwright from the Bard of Avon's writings:

"Dead as a doornail; eaten out of house and home; as good luck would have it; He had as a March hare; a snake in the grass; a woman will not tell what she does not know; birds of a feather flock together; as the saying is; dog's head has his day; fast, fast, fast; every man to his trade; familiarity breeds contempt; good wine needs no bush; make hay while the sun shines; past cure, past care; pitchers have ears; poor and proud; sink or swim; speak by the card; the world on wheels; we burn daylight; woo in haste and woo at leisure; give the devil his due, and what the dickens!"

Ontario Is Interested

Province Expects To Be Well Represented
At World's Grain Show

Ontario will be adequately represented at the World's Grain Show in Regina, July 24 to August 5, 1930. Hon. T. A. Cranney, provincial minister of agriculture, said at a meeting of the show's Ontario committee at Toronto recently.

The minister advised the committee Ontario should be represented in the intercollegiate and junior grain judging competition. Plans are being completed for holding grain judging competitions at several strategic points throughout the province to select representatives for a final competition at Guelph. There three Ontario representatives will be chosen. Consideration was given the preparation of an educational exhibit at the show, representing the natural resources of the province.

Sixty-five per cent. of the manufactured products used in Argentina are imported from other countries.

Politicians in flight move their wings in unison, taking their beat from the leader and keeping time with him.

Madame Lacroz's delicious CHOCOLATE LAYER CAKE

- 1/2 cup butter
- 1 cup sugar
- 2 eggs
- 1 teaspoon vanilla extract
- 1 cup milk
- 2 1/2 cups pastry flour (or 2 cups and 3 tablespoons of bread flour)
- 3 teaspoon Magic Baking Powder
- 14 teaspoon salt.

Cream butter; add sugar, a little at a time, beating until light; add beaten yolks and flouting; add flour, sifted with salt and baking powder, alternately with milk. Fold in stiffly beaten egg whites. Bake in 3 layered layer cake pans in moderate oven at 375° F. about 20 minutes. Ready for Chocolate Icing and Filling is the Magic Cook Book.

Why Magic Baking Powder is used exclusively at this Montreal School of Domestic Science

"We teach our students only the sure methods," says Madame R. Lacroz, Assistant Director of the Provincial School of Domestic Science, Montreal. "That's why I always use and recommend Magic Baking Powder. Its high leavening quality is always uniform. You get the same satisfactory results every time you use it."

And Magic Baking Powder is the unquestioned choice in the majority of cooking schools throughout the Dominion. Cookery teachers—and housewives, too—prefer Magic because of its consistently better results.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ontario.

Contains no alumina. Therefore, does not sour the food. It is the only baking powder in use from farm to hotel throughout the Dominion.

Record For Survey Ship

Government Vessel tests Mark For
Far North Sailing

Completing what is said to have been a new record in far north sailing, the 48 Ocean Eagle government survey ship, in command of Captain William Peckol, returned to Churchill after a 17-day voyage into the Foul Bay region. The "Eagle" steamed north the southern extremity of Cockburn Land, east and slightly south of the magnetic pole. It is said that no steamer of the proportions of the "Eagle" had sailed so far north in that area east of Baffin Island.

26 LIVES LOST IN ALBERTA BY FIRE

This was the Toll of Human Lives in 1931.

Added to this was:

Property Loss Totalling more than \$3000,000.00
Forest Fire loss totalling more than \$800,000.00

Help Us Fight This Great Public Enemy

SOME OF THE CAUSES:

- A neglected camp fire.
- A settler's clearing fire.
- A carelessly handled burning straw stack.
- A lighted match heedlessly flung.
- An improper use of gasoline and kerosene.
- A yard or building full of rubbish.

These and many other causes result often in fires that snuff out lives and do untold property damage.
